# **Navitrol**®

## **Landscape and Aquatic Herbicide**

### For selective control of nuisance aquatic plants

Applied Biochemists.

Navitrol® Landscape and Aquatic Herbicide is used to control aquatic plants; unwanted woody plants; and annual perennial broadleaf weeds. Targets common invasives such as: Eurasian watermilfoil and Purple Loosestrife without negative impacts on most native species

#### **Advantages**

- Selectively controls troublesome aquatic dicots
- Especially effective in controlling Eurasian watermilfoil, an aggressive, exotic species found throughout the U.S.
- Allows desirable native plants to remain for fish habitat, cover and oxygen production

#### **Application**

Apply evenly with aerial or ground equipment, ensuring thorough coverage. For submersed applications, use trailing hoses or drop lines to ensure even distribution throughout the water column.

#### **Restrictions & Regulatory Information**

For aquatic sites, water can be used immediately for recreational purposes, including swimming and fishing; In 120 days for irrigation (or until testing shows non-detectable), except on food or feed crops; Immediately for livestock consumption, except dairy animals; & for potable water, following the setback distances on the product label.

#### **Specifications**

| Active Ingredient(s) | 44.4% Triclopyr     |
|----------------------|---------------------|
| Appearance           | Light brown liquid  |
| Dosing               | 0.25 to 3 gal./acre |

#### **Packaging**

| SKU     | Unit Size  | Case  | Case   | Pallet | Pallet  |
|---------|------------|-------|--------|--------|---------|
| Number  |            | Count | Weight | Count  | Weight  |
| 398225A | 2.5 gallon | 2     | 54 lb  | 36     | 1991 lb |

Figure 1. For use in aquatic sites such as ponds, lakes, reservoirs, nonirrigation canals, and ditches which have little or no continuous outflow. Also labeled for some terrestrial sites.

Figure 2. Effectively targets non-natives like Eurasian water milfoil (left), allowing desirable native species to remain (right).
