

Navitrol® DPF

Landscape and Aquatic Herbicide

Applied Biochemists®

Easy to apply granules for invasive aquatic plants

Navitrol® DPF Aquatic Herbicide is an easy-to-apply triclopyr formulation for eliminating nuisance aquatic plants. Granules deliver product right where it's needed for powerful control of troublesome aquatic invasives like Eurasian watermilfoil.

Advantages

- Selectively controls most troublesome aquatic dicots, without harming most native monocots
- Especially effective in controlling Eurasian watermilfoil, an aggressive, exotic species found throughout the U.S.
- Allows desirable native plants to remain for fish habitat, cover and oxygen production
- Also available in liquid form

Application

Broadcast evenly using spreader or blower.

For small spot treatments, apply uniformly using spreader or hand scoop.

Restrictions & Regulatory Information

Water can be used immediately for recreational activities such as swimming or fishing, as well as animals drinking the water. See label for setback distances required for potable water.

Specifications

Active Ingredient(s)	14.0% Triclopyr
Appearance	Tan granules
Dosing	14 - 67 lb./acre-ft

Packaging

SKU Number	Unit Size	Case Count	Case Weight	Pallet Count	Pallet Weight
