Blue Springs is a trademark Lonza or its affiliates.

## PRECAUTIONARY STATEMENTS:

**CAUTION.** Contains Acid Blue 9 Dye. Concentrated product may cause eye or skin irritation. Do not get in eyes, on skin or on clothing. Wear safety glasses or goggles and rubber gloves when handling. Do not taste or swallow. Wash hands thoroughly with soap and water after use. Remove and wash contaminated clothing before reuse. Do not mix with any other chemical. Concentrated product can stain fabric and other porous surfaces. Avoid direct contact with these materials.

## STORAGE AND DISPOSAL

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep from freezing. Do not reuse empty container. Rinse empty container thoroughly with water, then offer for recycling, or dispose in accordance with state and local regulations.

## WATER USE RESTRICTIONS

- Allow several hours for this product to disperse before swimming, irrigation, or fishing.
- Do not apply this product directly to drinking water sources.
- When used at the recommended dosage rate, treated water will not stain exposed surfaces.
- When used at the recommended dosage rate, treated water will not harm fish, waterfowl, pets, or wildlife.
- Chlorinated water will cause fading, requiring higher dosages or more frequent treatments.

## DIRECTIONS FOR USE

1. Determine the water volume (acre-feet or cubic meters) as follows:

$$\frac{\text{Length (ft.)} \times \text{Width (ft.)} \times \text{Average Depth (ft.)}}{43,560} = \text{Acre-Feet}$$

Or

$$\text{Length (m)} \times \text{Width (m)} \times \text{Average Depth (m)} = \text{Cubic Meters}$$

**Note:** One Acre-foot = 325,000 gallons = 1,234 m<sup>3</sup>.

2. Depending on desired color, use 8 oz. - 13 oz. (0.24 L - 0.38 L) of [product name] [this product] for each acre-foot (1,234 cubic meters) of water as determine in #1 above. Pour from the container near shoreline into water. Complete, even dispersion of this product should occur within hours after treatment, depending upon water movement. Add additional amounts of this product as needed, to maintain desired coloration effect following dilution or water exchange.
